

Chief Executive Officer **Mark Timney**

Mark Timney joined The Medicines Company in December 2018 as Chief Executive Officer and as a Director. Mark is a healthcare leader with over 25 years of biopharmaceutical industry experience in multi-national companies. At Merck & Co, Mark held roles of increasing importance, responsibility and geographic scope, including President of Global Primary Care, President U.S. and President Japan. In these roles, he launched multiple products, many in the cardiovascular therapeutic area, led organizations of up to 8,000 employees, and was involved in a number of important strategic transactions.

After leaving Merck, Mark served as the Chief Executive Officer of Purdue Pharmaceuticals and formed a company advising healthcare companies. Before joining Merck, he spent eight years working at several multinational pharmaceutical companies, including Zeneca Group, ICI Pharmaceuticals and Roussel Labs. Mark received a bachelor's degree in Sports Studies (majoring in Marketing) from Newcastle Polytechnic (now Northumbria University) in Newcastle upon Tyne, the United Kingdom.
